"Festivities bring along the flavour of reverent love, care and blessings in our rushing lives."

Dear students

It is rightly said that the greatness of a culture, can be found in its festivals. India; as you know, is the country of festivals and celebrations. There are numerous events in India taking place each month, and August is no different. The month of monsoon sees some important Indian festivals which are a reflection of the culture of the country. The celebrations held on the festivals acquaint us with the culture and tradition of our country. Each festival has a religious connotation and a tradition attached to it. Festival time is a great opportunity to make us understand about the cultural roots of our country and help us connect with it.

At DSPS Sector 7 Karnal, we are committed for the all round development of the children. This cannot be achieved without the contribution of parents who are a source of constant motivation and support. Wishing you every happiness this Festive Season.
