

DYAL SINGH PUBLIC SCHOOL SECTOR-7, KARNAL

Dear Students

In today's fast-paced digital age, distractions from mobile devices and social media are abundant. A disciplined life can reduce these distractions, helping us shape a better future. Use your time wisely; excessive use of phones and social media can hinder academic performance. Set specific time limits for these platforms and establish a structured routine for enhanced productivity.

Reading is a gateway to knowledge, creativity and personal growth. Focus on reading newspapers, editorials, flash cards and solving puzzles to boost your academic performance and broaden your horizons. Students appearing for Board exams should practice test papers, use mnemonics, flashcards and seek guidance from teachers.

Engage in hobbies, physical activities, spend quality time with family and friends. Parents can support their children by fostering good communication, providing healthy supplies and staying in touch with teachers. Together, we can prepare our students to navigate the complexities of the modern world and contribute to their progress.

Vijeta Kadyan
[Subject Expert S.Sc]

PTA MEETING
