Leading Thoughts

JULY 2026

Dear Students

The monsoon season fills our surroundings with refreshing showers, cool breezes and vibrant greenery. While it brings joy and renewed energy, it also increases the risk of seasonal illnesses. Therefore, it is essential to enjoy the beauty of the rains with care and responsibility.

Your health is your greatest wealth. Eat fresh and nutritious food, drink clean and safe water, avoid unhygienic roadside snacks and maintain personal hygiene by washing your hands regularly. Adequate sleep, regular exercise and limited screen time will keep both your body and mind active and healthy.

Good health forms the foundation of academic success. Attend school regularly, complete your assignments sincerely and revise your lessons consistently. Remember, success is achieved through discipline, perseverance and daily effort.

Equally important are the values you practise every day. Be respectful towards your teachers, kind and supportive to your friends and loving, grateful and obedient to your parents. These relationships nurture confidence, compassion and strong character.

Let this monsoon inspire you to grow just as nature flourishes after every shower. Cultivate healthy habits, positive values and a disciplined attitude. May every day bring new opportunities to learn, improve and shine.

Stay healthy, stay safe and let every step you take lead you towards excellence and a brighter future.
